## Money to Loan at 3 per cent

No Commission, Bonus or Compound Interest  
Origin of Our 3 Per Cent Plan

Ours is not a new plan. It originated in Greenwich, England, in 1809. The largest company now operating is in Manchester, England, with a record of over \$50,000,000 of business written.

What the Supreme Court of Mo. says of our plan

The following is an extract from an opinion by the Supreme Court of Missouri with reference to the method of making loans as used by the

United Home Loan Depository, Kansas City, Mo.

"It will be noted that full provisions for the safeguarding of the rights of beneficiaries are made. It is shown by the best actuarial authorities in the state that the plan is financially sound. In fact, that is conceded by the pleadings in this case. When this is considered, in connection with further facts that the Trustees managing this trust, are, at all times, subject to a court of equity, and by virtue of section 10263 Supra, are under the constant supervision of the Supervisor of the Building and Loan Associations of Missouri it becomes difficult to conceive how stronger safe guards could be made to protect the public."

The above can be found in full detail in the Southwest Reporter advance sheet dated September 14, 1921—Pages 20-29.

Does this sound like a fraud or fake to you? Well it did not sound that way to your supreme court.

If you expect to need MONEY SOON, Get our Money at 3 per cent. Pay it back at the rate of ten dollars per month per thousand dollars and interest at 3 per cent which reduces yearly as the principal is reduced. Send us your application at once as it will require some time to get your loan through.
